Smoke & Fire Alarm

9 Volt Alkaline
Battery Included

Model SA-775

Have a safe trip!

Smoke & Fire Alarm:

- Built for the extreme RV environment
- Mute button that temporarily silences alarm
- 24 hour continuous protection
- Easy installation
- No wiring required
- Meets RVIA/NFPA requirements
- Listed to UL 217 RV

The National Fire Protection Association recommends Smoke Alarms be installed in every sleeping room. NFPA 1192 requires the primary smoke alarm installed in RV's to be located "not within the separate sleeping areas." For additional protection install a smoke alarm in each sleeping area of your RV.
