

SAFE ALERT™

Made in USA

Gas Vapor Detectors

Provides protection against accidents caused by gas vapor spills or leaks. Remote sensor monitors bilge/engine compartment during and after fueling.

- Full 5 year service life
- Cost effective technology
- Re-engineered “Plug and Play” design
- Dual microprocessor technology
- Smart sensor block for improved performance
- Add 2nd Sensor Block for additional coverage on larger boats
- Use 2nd Control Panel to alert those in other areas of the boat
- Certified: The MGD-1 and MGD-1XL gas detector and indicators meet the test requirements as specified in ABYC A-14 and UL1110
